

Contents

Foreword	Nov 1992	<i>xi</i>
-----------------------	----------------	-----------

Section 1 – General Detailing

Location of Details and Notes	Nov 1992	1-1.1, 1-1.2
Lettering and Lettering Examples	Nov 1992	1-2.1, 1-2.2
Stationing and Curve Data	Nov 1992	1-3.1
Dimensioning and Notations	Nov 1992	1-4.1 – 1-4.4
Section Hatching	Nov 1992	1-5.1
Detailing Tools	Nov 1992	1-6.1
Decimal Equivalents	Nov 1992	1-7.1
Useful Angles for Drafting Machines	Nov 1992	1-8.1
Pencil Drawings – Do's and Don'ts	Nov 1992	1-9.1
Project Plans made from Microfilm Enlargements	Nov 1992	1-10.1, 1-10.2
Abbreviations	Nov 1992	1-11.1, 1-11.2
Sheet Title Blocks and Signature Blocks	Nov 1992	1-12.1
Electronic Signatures (XS Sheets) Form DS-D-0005	Jul 1993.....	1-13.1
Revision Dates	Nov 1992	1-14.1
Use of Standard Plans	Nov 1992	1-15.1, 1-15.2
Use of Bridge Standard Detail Sheets (XS Sheets)	Jul 1993.....	1-16.1 – 1-16.5
Use of CADD Patterns or Components	Nov 1992	1-17.1
Transmittal of Project Plan Sets to Headquarters		
Office Engineer at Expedite	Nov 1992	1-18.1
Late Plan Changes	Nov 1992	1-19.1
Revisions to Contract Plans	Nov 1992	1-20.1 – 1-20.8
As-Built Plans Corrections	Nov 1992	1-21.1, 1-21.2

Section 2 – Layout

Curve Functions	Nov 1992	2-1.1
Length of Arc Table	Nov 1992	2-2.1
Deflection and Chord Table	Nov 1992	2-3.1
Tangent Offset for Circular Curves	Nov 1992	2-4.1
Parabolic Curve	Nov 1992	2-5.1
Edge Distance for Bearings	Nov 1992	2-6.1

Section 3 – General Plan

General Plan Sheet Checklist	Dec 1990	3-10 – 3-15
Example C – Index to Plans	Aug 1991	3-15.1
Example D – Form DS-OSD 152 (Index to Plans Worksheet)	Mar 1990	3-15.2
Example E – Index to Plans	Mar 1990	3-15.3
Example F – General Plan	Aug 1991	3-15.4
Public Utilities Commission Sheets	Nov 1982	3-20
Title Sheets	Sep 1981	3-21, 3-22
‘General Plan’ Title Sheet Example	Sep 1981	3-23
‘Project Plan’ Title Sheet Example	Sep 1981	3-24
Structure Identification	Sep 1978	3-30, 3-31
State Reclamation Board Plan Submittal	Dec 1971	3-40
State Reclamation Board Plan Submittal (<i>continued</i>)	May 1974	3-41
Detailed Example – General Plan	Aug 1982	3-50
Detailed Example – General Plan	Aug 1982	3-52
Detailed Example – General Plan	Aug 1982	3-54
Detailed Example – General Plan	Aug 1982	3-56
Detailed Example – General Plan	Dec 1990	3-58

Section 4 – Grades

Deck Contour Sheet Check List	Oct 1985	4-10
Detailing Example – Deck Contours	Oct 1985	4-11
Rate of Change of Vertical Curves	Dec 1971	4-20
Vertical Curve Formula	Dec 1971	4-30
Middle Ordinate	Dec 1971	4-32
Vertical Curve Calculations	Dec 1971	4-34
Vertical Curve Calculations (<i>continued</i>)	Dec 1971	4-36
Vertical Curve Calculations (<i>continued</i>)	Dec 1971	4-38

Section 5 – Foundation Plan

Foundation Plan Checklist	Dec 1990	5-10
Footing Layout Information	Dec 1990	5-11
Special Earthwork	Dec 1971	5-12
Concrete Pile Extension for HP 10x42	Feb 1975	5-13
Detailing Example – Foundation Plan	Apr 1973	5-50
Detailing Example – Foundation Plan	Apr 1979	5-51
Detailing Example – Foundation Plan	Dec 1990	5-52

Section 6 – Abutments, Wingwalls

Abutment Sheet Check List	Aug 1991	6-11, 6-12
End Diaphragm Abutment	Jun 1990	6-21
Weep Hole and Geocomposite Drain	Nov 1992	6-22
Stirrup Reinforcement at Abutments	Aug 1981	6-24
Box Girder Diaphragm – Slab Reinforcement	May 1989	6-25
Bin Type Abutment Layout	Jun 1986	6-40
Bin Type Abutment Details	Jun 1986	6-41

Section 6 – Abutments, Wingwalls – *continued*

Cantilever Abutment – Spread Footing	Jun 1986	6-50, 6-51
Cantilever Abutment – Pile Footing	Nov 1978	6-52
Cantilever Abutment – Pile Footing (<i>continued</i>)	Dec 1971	6-53
Pile Layout – Type 1 Retaining Wall (H4-36)	Feb 1973	6-60
Pile Spacing – Type 3 Counterfort Retaining Wall	Jun 1972	6-61
Pile Spacing – Wingwalls – Pile Footing	Jun 1972	6-62
Pile Footings	Jun 1990	6-71
Piles at Abutment Corners	Jun 1990	6-72
Bearing Pad Location at Anchorage Blockout	Jun 1990	6-73
Sealed Joints	Apr 1990	6-75
Joint Protection Detail	Feb 1989	6-76
BB and EB Locations	Feb 1989	6-77
Abutment Structure Approach Details	Feb 1989	6-78
Cantilevered Wingwalls	Apr 1990	6-80
Retaining Wall Wingwall	Apr 1990	6-81
Abutment Wingwall Corners	Apr 1990	6-82
Sidewalk Support Bracket	May 1989	6-84
Sidewalk on Wingwall	May 1989	6-85
Concrete Barrier Type 25 on Walls	Mar 1973	6-86
Detailing Example – Abutment Details	Nov 1972	6-90
Detailing Example – Abutments	Aug 1981	6-92
Detailing Example – Abutments	May 1980	6-94
Detailing Example – Abutment	Jun 1986	6-96
Detailing Example – Abutment	Nov 1972	6-98
Detailing Example – Retaining Wall Layout	Nov 1972	6-100
Detailing Example – Retaining Wall Layout	Nov 1972	6-102

Section 7 – Bents

Validation of pages 7-20 and 7-36	Apr 1990	7-0
Bent Sheet Check List	May 1990	7-10, 7-11
Pier Column	Jan 1974	7-20
Footing with Seal Course	Jun 1990	7-20.1
Structure Excavation Type D	Oct 1992	7-20.2
Footing Reinforcement	Jun 1990	7-21
Guidelines for Column Type Selection	Nov 1978	7-30, 7-30.1
Standard Architectural Columns – Prismatic	Apr 1990	7-31
Standard Architectural Columns – One Way Flare	Apr 1990	7-31.1
Standard Architectural Columns – Two Way Flare	Apr 1990	7-31.2
Large Diameter CIDH Column Reinforcement.....	May 1979	7-34
Vertical Column Reinforcement.....	Dec 1974	7-35
Web Wall for Pile Bents	Dec 1974	7-36
Hooks on Column Reinforcement	Jun 1986	7-40
Bent Cap Reinforcement	Aug 1981	7-41
Bent Cap Section Details – 0° to 20° Skew	Jun 1986	7-42, 7-42.1
Bent Cap Section Details – Over 20° Skew	Jul 1986.....	7-43, 7-43.1
Bent Cap Reinforcement	Jun 1986	7-44
Stirrup Reinforcement at Bent – Vertical Exterior Girder	Jun 1986	7-45
Stirrup Reinforcement at Bent – Sloping Exterior Girder	Jun 1986	7-45.1
Skewed T-Caps	Dec 1971	7-46
Detailling Example – Bent Details	Jun 1986	7-50
Detailling Example – Bent Details	Jun 1986	7-51
Detailling Example – Bent Details	Jan 1991	7-52
Detailling Example – Bent Details	Jan 1991	7-53
Detailling Example – Bent Details	Jan 1991	7-54

Section 8 – Typical Section

Typical Section Sheet Check List	Jul 1990	8-11, 8-12
Box Girder Soffits	Jul 1990	8-20
Sloped Exterior Girders	Jul 1990	8-21
Standard Precast Prestressed Girders	Jul 1990	8-22
Deck Slab Reinforcement	Sep 1993	8-30
Bottom Slab Reinforcement	Sep 1993	8-30.1
Straight Bar Method	Jun 1986	8-31
Typical Transverse Reinforcement	Jul 1986	8-32
Part Typical Section Example	Jul 1986	8-33
Variable Bay Transverse Reinforcement	Jun 1986	8-34
Minimum Reinforcement at Deck Overhangs	Jun 1986	8-35
Skewed Deck Corner Reinforcement	Dec 1971	8-36
Median Slab with Concrete Barrier – Type 50	Jul 1990	8-40
Medians	Jul 1990	8-41
Sidewalks	Jul 1990	8-42
Barrier Railing Modification for Deck Overlays	Jul 1990	8-43
Sidewalk Expansion Joint Armor	Apr 1990	8-44
Concrete Barrier Type 26 Cover Plate	Apr 1990	8-44.1
Concrete Expansion Dam	Apr 1990	8-45
Detailing Example – Typical Section	Nov 1972	8-48

Section 9 – Girder Layout

Girder Layout Sheet Check List	May 1991	9-10, 9-11
Camber Diagrams for Cast-In-Place Concrete Girders	May 1991	9-20
Center of Gravity of Prestressing Force Diagram	May 1991	9-21–9-21.3
Concrete Strength and Type Limits	Sep 1985	9-22, 9-23

**Section 9 – Girder Layout – *continued***

Deck Joints – Cast-In-Place Concrete Girders	Feb 1991	9-30
Deck Joints –		
Cast-In-Place Concrete Girders (<i>continued</i>).....	Aug 1990	9-30.1
Deck Joints – Precast Concrete or Steel Girders	Feb 1990	9-31
Detailing Example – Girder Layout	Nov 1972	9-50

Section 10 – Girder Reinforcement

Girder Reinforcement Sheet Check List	Dec 1971	10-10, 10-11
Box Girder Reinforcement	Dec 1971	10-20 – 10-22
T-Beam Girder Reinforcement	Dec 1971	10-23
Layout of No. 11 Bars in Stem of T-Beam.....	Dec 1971	10-24
Detailing Example – Girder Reinforcement	Nov 1972	10-30

Section 11 – Steel Girders

Transverse Web Stiffeners on Welded Plate Girders	Dec 1971	11-10
Location of Bearing Elevation	Dec 1971	11-20
Criteria for Control Dimension “Y” on Steel Girders	Nov 1972	11-30
“Down” Distance for Masonry \perp Grades	Dec 1971	11-30.1
Crossframes with Lateral Bracing	Dec 1971	11-40
Welding Symbols	Mar 1981	11-50, 11-50.1
Structural Steel Shape Designations	Dec 1971	11-52
Steel Sheet Thickness Designations	Jul 1974	11-54
Detailing Example – Bent Caps.....	Nov 1972	11-60
Detailing Example – Girder Details	Nov 1972	11-61, 11-62
Detailing Example – Hinge Details	Nov 1972	11-63
Detailing Example – Crossframes and Lateral Bracing	Nov 1972	11-64

Section 12 – Railroads

I-105 Guidelines for LRT Stray Current Provisions	Dec 1988	12-10.1 – 12-10.3
I-105 Overcrossing Guidelines for LRT Stray Current Provisions	Dec 1988	12-10.4, 12-10.5
Detail 1 – Deck Slab Collector Bar	Sep 1987	12-10.6
Detail 2 – Copper Cable to Rebar Connection	Sep 1987	12-10.7
Detail 3 – Hinge Details	Mar 1990	12-10.8
Detail 4A1 – Typical Abutment Plan	Mar 1990	12-10.9
Detail 4A2 – Abutment Details (Seat Type with Backwall). Mar 1990.....	12-10.9.1
Detail 4B – Abutment Details (Diaphragm Type Abutment)	Sep 1987	12-10.10
Detail 5 – Prestress Tendon Connection.....	Sep 1987	12-10.11
Detail 6 – Hinged Column Details with Footing	Sep 1987	12-10.12
Detail 7A – Fixed Column Details with Pile Cap Footing	Sep 1987	12-10.13
Detail 7B – Fixed Column Details with Spread Footing.....	Sep 1987	12-10.14
Detail 8 – Hinged Column Details, Pile Shaft Type.....	Sep 1987	12-10.15
Detail 9 – Column Details, Pile Shaft Type	Sep 1987	12-10.16
Detail 10 – Deck Drain Details.....	Sep 1987	12-10.17
Detail 11 – Column Test Box	Sep 1987	12-10.18
Detail 12 – Traction Power System Detail	Sep 1987	12-10.19
Detail 13 – Pumping Plant Provision	Jun 1991	12-10.20
Railroad Companies	May 1975	12-20
Railroad Shoofly	Apr 1991	12-40
Waterstops at Top of Railroad Underpass Endwalls	May 1975	12-50
Through Plate Girder – Concrete Ballast Trough.....	Dec 1971	12-70
Through Plate Girder – Steel Ballast Trough	Dec 1971	12-71
Deck Plate Girder	Dec 1971	12-72

**Section 12 – Railroads – *continued***

Through Concrete Girders	Nov 1975	12-73
Through Plate Girder	Oct 1991	12-74
Railroad Underpass Curbs	Apr 1991	12-75
Angle Stiffener Fit Criteria	Dec 1971	12-82
Railroad Standard Notes	Dec 1971	12-90
Railroad General Notes	Jan 1992	12-91, 12-92

Section 13 – Reinforcement

Reinforcing Bar Data – Grade 60	Jul 1984	13-10
Anchorage of Main Reinforcement	Jun 1981	13-12
Development Length of Deformed Bars	Aug 1992	13-14 – 13-14.5
Reinforcement – Splicing	Jun 1981	13-16
Minimum Clearance and Spacing	Nov 1992	13-20, 13-21
Minimum Bar Spacing for CIP Concrete Piles	Nov 1992	13-22
Welded Wire Fabric Standard Sizes	Dec 1971	13-30
Welded Wire Fabric Conversion Table	Dec 1971	13-31
W-Number Wire Sizes	May 1980	13-32
Sectional Areas of Weld Wire Fabric	May 1980	13-33

Section 14 – Prestressed, Precast

Box Girder Diaphragm - Prestressed	Aug 1994	14-1.1
Box Girder Cell Access	Dec 1971	14-10
Detailing Example –		
Prestressed Concrete Box Girder	Jan 1981	14-12
Detailing Example –		
Prestressed Concrete Box Girder	Sep 1978	14-13
Diaphragm Details for Precast Girders	Sep 1978	14-14

**Section 14 – Prestressed, Precast – *continued***

Stirrup Anchorage for Precast Girders	Sep 1978	14-15
Welded Wire Fabric in Decks	Dec 1971	14-20
Precast Box Girders	Nov 1978	14-30

Section 15 – Architectural Treatment

Section not used at this time

Section 16 – Joints, Utilities, Miscellaneous Appurtenances

Installation of Water Lines by Utility Company	Jun 1990	16-2
Installation of Water Lines by Utility Company – Detail A	Jun 1990	16-3

Section 20 – Bridge Detail Plans

Table of Contents, Bridge Design Detail Sheets (<i>XS Sheets</i>) Sep 1993	20-1.1 – 20-1.5
Index to Bridge Standard Detail Sheets (<i>XS Sheets</i>) Sep 1993	20-2.1 – 20-2.5

Appendices

Appendix A – Abbreviations	Nov 1992	A.1 – A.4
Appendix B – Forms	Nov 1992	B.1
<i>DS-D0005 (Rev. 12/90)</i>		
<i>DS-D0006 (Rev. 10/92)</i>		
<i>DS-D0144 (Rev. 10/92)</i>		

Foreword

Use of CADD

The Department of Transportation, Division of Structures, promotes the use of CADD as the primary tool in the preparation of all plans. Instructions for its use is contained in the publications, *Anvil 5000 Digitizing Tablet Cross Reference Manual* and the *Anvil 5000 3-D Design/Drafting Manuals*, Volumes 1 and 2.

Instructions presented in this manual, Bridge Design Details, for the preparation of details and plans using other than CADD is for infrequent use only. ♦
